2 to all

The DO has reservations about releasing this document to the SFRC because the substance represents a distorted view. The State Department concurs, stating that the distorted view presented in this paper could affect relations. However, the DO has no authority to deny according to regulations.

An initial check by the DDI analyst reveals the document could have received fairly broad external distribution. Additional checking is necessary to determine the actual distribution.

If the document is released to the SFRC we believe the DO's opposing views as expressed in C/EUR memorandum (attached) should be made known to the SFRC.

11 to 12: The DDO has concurred that this document should not be released without the caveats as stated in memorandum. If possible, the document should not be released at all.
